Le Tovaglie Carta Secco 100x100

L'airlaid è un tessuto non tessuto privo di materie plastiche composto da fibre di cellulosa che vengono trattate con l'aria. In pratica tovaglie e tovaglioli in airlaid sono realizzati con carta a secco idonea al contatto con gli alimenti.

Il vantaggio del tovagliato in airlaid è la facilità di lavorazione della materia e l'alta resa del prodotto finale. Le avanzate tecniche con cui è trattato permettono un risultato molto simile alla stoffa, senza rinunciare al design e all'estetica.

Le Tovaglie Speciali

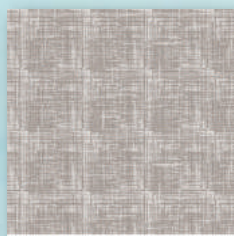

La linea ECOBAMBOOK

Composta da fibra vegetale e pertanto **biodegradabili e compostabili**.

Tale fibra é una delle piú sostenibili in natura poiché, grazie alla rapida vegetazione della pianta, la cellulosa ricresce in un breve periodo di tempo. La linea ECOBAMBOOK é caratterizzata da una morbidezza straordinaria abbinata a una resistenza incredibile.

La linea WATERPAPER

Water Paper é la prima carta a secco biodegradabile, compostabile e soprattutto IDROSOLUBILE. Questo prodotto é realizzato senza lattice e pertanto si dissolve rapidamente in acqua.

Tale caratteristica **permette di smaltirlo sia nella carta che nell'umido**, nel rispetto delle vigenti normative ambientali, garantendo cosí anche un vantaggio economico.

Il prodotto si presenta con una trama molto particolare apprezzabile nel bianco puro e nelle fantasie di ultima tendenza adatte ad ogni occasione.

Le Tovaglie T.N.T. 100 x 100

Il **tessuto non tessuto** generalmente si compone di materiali plastici come il polipropilene e il poliestere con cui si ottengono delle finte stoffe che si caratterizzano per la particolare morbidezza e resistenza.

Normalmente il TNT è lavabile e facilmente modellabile e può anche essere stampato.
